

Temporary ATMs during Freshers' Week		Disappointingly the provider I had hoped to work with wasn't prepared to put the machines in place without it either costing users a lot, or costing the union a lot, and I didn't feel it was an appropriate use of a significant sum of money.
A weekly minibus service to Morrisons		Despite some positive discussions, we were unable to secure sponsorship from Morrisons – at a cost of £90 a week I didn't feel it would have been a cost effective service for students.
Take away drinks from the Courtyard at the end of the night	Done	
Temporary reintroduction of the NUS democracy card until Uni Card Improved	Done	Uni Card now has DoB
Help every college bar compete with the Courtyard	Done	I've spent a lot of time working with the university working on issues like this, I've worked with Bar Strategy Group, the Bar Focus Group, Set up a Bar Rep Forum to share best practice, and assisted colleges and commercial services in marketing bars more effectively
Make B Henrys the home of YUSU Comedy		YUSU comedy has been put on hold as our compere moved, and we've struggled to find opportunities to run events that don't clash with Colleges
A weekly "fresh fruit and veg" market stall		Essentially this was blocked by commercial services who didn't believe it to be viable. And I wasn't prepared to use union funds to subsidise it. We're currently looking at ways to allow delivery to students for next year; and a student group (SCOOP) is developing a co-op to supply organic and ethically sourced foodstuffs to students.
Ensure JCRCs are trained by YUSU marketing and design staff	Done	This has been offered to JCRC's
Support Goodricke during its move	Done	I attended and organised regular meetings with the College Chair and University to address specific issues, as well as supporting their events and activities. I still work with them to ensure that issues are dealt with them and have offered support with specific events such as 'Goodfest'
Overhaul Entstech.	Done	Entstech doesn't exist any more
Make manifesto visible for the entire year	Done	
Introduce a weekly video blog		I have done many, however I've lapsed in places
Video footage of UGMs	Done	
Provide an extra source of funding for JCRCs to increase election participation	Done	
Reduce the debit card fee for online purchases to the YUSU website		Our move to a New Bank (The Co-Op) which should make this possible, however our current contact for card payments remains in place until the end of this year which has made it difficult to make alterations
To make public monthly accounts available to students	Done	
To streamline the links between large student organisations	Done	Assisted and supervised ISA elections. I've also been involved with Higher York and developed relationships with YSJSU. We've worked closely with the GSA, attending a joint strategy day and we've working increasingly closely on campaigns
To make society finances manageable online		The website redevelopment and other more pressing issues like online ratification, online nominations, have meant that this has been pushed back. We are recruiting further IT support so that we able to take on strategic projects like this in future.
Make YUSU less reliant on the University for its funding	Done	The 10-11 Budget is likely to be about 2% more self funding, than 09-10. (This might not sound like a lot, but it works out to around £20k), and we've identified several areas for future commercial development. We've also developed a clear reserves policy to ensure we are prepared for unexpected issues
